E 5CEN.5

E 5SUB.5

LLX

Low-loss X-over

Crossover with a minimum number of components. The result is clear and clean sound reproduction, as well as low distortion when the volume is high.

EOP

Electronic overload protection

Electronic component that turns down the volume if the loudspeaker becomes overloaded.

3S

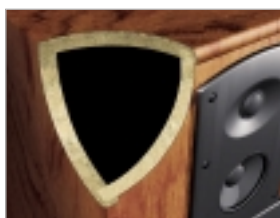

Similar surround sound

Ensures perfect timbre matching between front and rear loudspeakers.

100W

100-watt subwoofer

Deep bass in abundance and sound pressure enough for almost everyone, plus SMD technology. Switches on and off automatically.

PB

Particle board. Wooden board made from compressed wood chips. Particle board has good acoustic properties and high mechanical stability. These qualities make particle board a very suitable material for speaker cabinets.

NDT

Neodymium dome tweeter ensures clear and neutral sound reproduction of the highest frequencies.
