

X 530PDD / X 510PDD

If you're into hard-edged beats, you need these speakers like skaters need wheels. Packed with a 2-way bass reflex system featuring a 8"/ 6" woofer combined with a horn-loaded dome tweeter, they have muscle enough to make any rump shake, and throw a knockout blow with their awesome bass. The drivers are mounted in a 19 mm (0,7 inch) front baffle to prevent vibrations – and keep calm in the eye of any storm.

The surround add-on combines two X 510s, an extremely powerful centre speaker with dual 6 1/2" woofers as well as an active subwoofer. This powerful subwoofer with a custom-designed long throw 12" woofer, delivers a sound pressure of more than 100dB that will beat your body around when you put on that hard-hitting game or DVD.
